

for immediate release

The Count of Custoza Family Office is proud to announce: **The Classic Car Fund** based in Liechtenstein, will shortly be quoted on the German fund exchange.

The only existing fund worldwide in this sector, was developed to capitalise on the significant growth in value of vintage automobiles in the last years.

Fund Manager, Filippo Pignatti, who himself is passionate about vintage cars and their history says, 'this is very much a non-elitist approach to investing in this sector. We want to be fully transparent, hence our quotation on the stock exchange. There is so much ambiguity; many investments aren't performing steadily in the current volatile landscape – The Classic Car Fund, provides a platform for those looking to diversify their portfolio'.

The investment team includes experts from Sotheby's, Christie's and experienced private collectors who have themselves worked in finance.

Proposed press conference - Retromobile, Paris on the morning of Friday 4th February for more details please contact us at: press@theclassiccarfund.com

Visit www.countofcustoza.com or www.theclassiccarfund.com for more information on the fund (ISIN-NR. LI0117063490).
